

SKY LODGE: ACTIVITIES GUIDE

Sky Lodge is located within a short distance to a wealth of outdoor activities. If you're not sure about what to explore first, check out this guide and sample itineraries and make the most of your time in the Moose River Valley.

Whether you prefer to make your own way or blaze down a weathered path, there's so much to explore in Jackman.

Mountain Bike on the Rancourt Pond or Heald Stream trails.

Meander on horseback from Ledge Creek Stables by babbling brooks and beautiful vistas.

Hit the trail by snowmobile or ATV right from your front door and enjoy the thousands of miles ready to be explored. A huge thanks to the Border Riders Sportsman Club and many other clubs statewide who maintain these trails and to the private landowners who allow access.

If hiking is your speed, try Number 5 Mountain, Owls Head, or any of the other incredible hikes nearby to look over the Moose River Valley.

WATERFALL HIKES

Slide Down Falls is a beautiful oasis among acres of logged land, this cascading waterfall has cool deep pools. The moderate hike into the falls is about a mile one way.

Jim Mac Falls is located just north of the lodge on the side of Route 201. The easiest of all the falls to access, you can see them from the road. For a closer look, park in the pull-off on the northbound side and take the paved walking path.

Moxie Falls boasts being the highest waterfall in New England and is special in all season. A bit of a drive from the lodge, this easy hike is great for families at about 0.8 miles each way.

Cold Stream Falls is accessible via a 1.6 mile hike through the woods on a fisherman's path which requires climbing over mossy rocks and around trees with a steep finish toward the end.
